Dongguan Shipai Zhenxin Grinding Technology Co., Ltd.

Mass finishing media, compounds and equipment · a family business in surface finishing since 2002

24 years	ISO 9001:2015	One PO	Free
in mass finishing	certified quality system	media + compound + machine	samples & trials on your parts

Who we are

Zhenxin is a family business. The Fei family entered the vibratory finishing trade in 2002, and the company in its current form was registered in Dongguan in 2018. For more than two decades we have matched media, compounds and machines to real parts for metalworking shops.

Our media comes from a long-term partner mill in Huzhou, China's main production hub for finishing media. Our compounds are our own formulations. Every lot is inspected by us before it ships, and we advise on the process, not only on the product.

What we supply

Ceramic media	Fast-cut, general-purpose and fine-finish grades in triangles (straight-cut and angle-cut), cylinders, balls and other standard shapes. Porcelain (non-abrasive) media for burnishing.
Plastic / resin media	Cones, pyramids and triangles in coarse to fine grades for aluminium, soft metals and pre-plate finishing.
Compounds	**Degreasing powder** for cleaning and deburring runs, and **polishing / burnishing compound** for bright finishes. Our own formulas; private label available.
Equipment	Vibratory finishing machines and related equipment from our partner manufacturer, shipped together with media and compound.

For volume orders we can match a shape, size or grade you currently stock. Send us a sample or the spec.

How we work with you

- **Free samples.** Samples are free; you cover courier only.
- **Trial on your parts.** Send a few parts; we run them in our media and compound and return before/after photos, a short video and process notes (cycle time, media mix, compound dosage).
- **Lot inspection.** Every lot ships with our inspection record: batch number, size and shape check, appearance and packing.
- **One shipment.** Media, compound and machines can go in one container to cut freight and paperwork.
- **Clear terms.** FOB China port, quoted in USD. Payment 30% deposit, 70% against B/L copy. Lead time confirmed with each quote.

Company facts

Legal name	Dongguan Shipai Zhenxin Grinding Technology Co., Ltd.
Registered	17 December 2018, Dongguan, Guangdong, China · Unified Social Credit Code 91441900MA52MYQX65
Quality system	ISO 9001:2015 (GB/T 19001-2016), certificate no. 4852026Q00175R000, valid until 26 April 2029. Scope: sale of grinding and polishing materials and polishing machinery. Verifiable at www.cnca.gov.cn
Registered office	No. 11 Shayue Street, Shipai Town, Dongguan, Guangdong, China
Factory site	Rooms 201–203, Building C, Jinyi Hardware Factory, Hubin North Road, Qishi Town, Dongguan, Guangdong, China
